CURRICULUM VITAE

Alen Bajrić

Department Manager | Electrical Engineer

Process Optimisation • Programming • AI • Digital Solutions

alenbajric@gmail.com linkedin.com/in/alenbajric github.com/alenbajric

PROFILE

Electrical engineer with over ten years of experience in industrial automation, metrology and technical systems. I lead a specialist team at Krka and develop more efficient workflows. My work combines people leadership, data analysis, automation, programming and practical AI applications. I am also pursuing a master's degree in informatics.

PROFESSIONAL EXPERIENCE

Apr 2025 - present

KRKA, d. d. · Novo mesto

Department Manager - Calibration of Computerised and Production Systems

Lead a specialist team, plan calibration activities, develop staff and ensure quality. Focus on process optimisation, workflow automation and digital solutions in line with GMP/GxP requirements.

Aug 2022 - Apr 2025

KRKA, d. d. · Novo mesto

Technologist - Metrology

Temperature, humidity and pressure calibration, environmental mapping and measurement analysis. Metrological traceability, GMP documentation and participation in IQ/OQ qualification testing.

Nov 2016 - Aug 2022

KOLEKTOR SISTEH, d. o. o.

Automation Engineer

Siemens PLC programming and SCADA integration (GE iFIX, WinCC). Interface development, system testing and commissioning, troubleshooting and documentation aligned with GAMP 5.

Mar 2015 - May 2015

RTV SLOVENIJA

Electrical Engineer

Electrical drawings in AutoCAD, testing and repair of electrical installations, analysis of UPS system performance and preparation of technical reports.

MY APPROACH

From identifying an issue to delivering a practical solution: I analyse workflows, connect people and technology, and introduce measurable improvements.

CORE COMPETENCIES

Process optimisation

Workflow analysis, automation of repetitive tasks and operational improvement.

Artificial intelligence

Practical use of AI in solution development, data analysis and coding workflows.

Programming & web development

Python, JavaScript, HTML, CSS; scripts, web applications, responsive interfaces and UI/UX.

Digitalisation & leadership

Microsoft 365, SharePoint, Teams, Power Automate; organising and developing teams.

Industrial automation

Siemens PLC, TIA Portal, SCADA (GE iFIX, WinCC), AutoCAD; testing and commissioning.

Metrology & quality

Calibration, temperature mapping, IQ/OQ, GMP/GxP, GAMP 5 and ISO/IEC 17025.

SELECTED PROJECTS

Calibration planning

IN DEVELOPMENT

Data-driven scheduling, workload standards and more effective allocation of work.

Digital mapping workflows

IN DEVELOPMENT

Measurement processing, standardisation and automated reporting.

Digital work processes

IMPLEMENTED / EVOLVING

Work planning and notifications using SharePoint, Teams and Power Automate.

PLC and SCADA systems

PROFESSIONAL EXPERIENCE

Development, integration and testing of industrial control and monitoring systems.

EDUCATION

2025 - 2027 — **Master's studies - Informatics in Contemporary Society**
Faculty of Information Studies, Novo mesto · in progress

2011 - 2016 — **Degree in Electrical Engineering**
University of Ljubljana, Faculty of Electrical Engineering

2007 - 2011 — **Electrical Engineering Technician (Electronics)**
Maritime and Technical Education Centre, Portorož

LANGUAGES & PERSONAL INTERESTS

Languages: English, Croatian

Driving licence: category B

I am a father of two sons and family is an important part of my life. In my free time, I enjoy football, music and playing the accordion.

INDEPENDENT DEVELOPMENT

Exploring and developing concepts for web applications, AI tools, data solutions and future software-as-a-service (SaaS) products.
